

## Fogger Machine

### TECHNICAL SPECIFICATIONS :

- Body : 304 Grade Stainless Steel
- Tank Capacity : 4 Litre of Chemical Storage
- Blower Motor : 28000RPM Motor
- Nozzle : 1 Counter Rotating Vortex Nozzle
- Control Valve : Can Atomize both oil-based & water based liquids
- Particle Size : one tum. Brass Valve
- Range : 0.5-30 + adjustable viscosity and density can affect particle size.
- Input : Visible fog. 20-40 ft.
- Dimensions : 230V 50Hz Single Phase AC Supply
- Net. Weight : [ 33 x 41 x 23.5 cm ] L X H X Dia 4.60 Kg (Approx.)
